

For Immediate Release

18 September 2007

DAWMED SYSTEMS PLC
("DawMed" or the "Company")

APPOINTMENT OF DAWMED GROUP AS UK DISTRIBUTOR FOR SALES AND SERVICE
OF A NEW RANGE OF BENCH TOP STERILISERS

The Board of DawMed, the AIM listed medical device company which designs, manufactures, sells and services healthcare decontamination equipment used by NHS Trust hospitals, private hospitals, clinics and Primary Care practitioners, is pleased to announce the Group's appointment as UK Distributor for sales and service of a new range of bench top sterilisers in the UK under an Exclusive Distributorship Agreement ("Agreement") between its operating subsidiary company, DawMed International Limited ("DMI") and Unident SA ("Unident").

Unident is based in Switzerland and is a wholly owned subsidiary of the international French company Laboratoires Anios, a market leader in infection control through a wide range of disinfection products, including medical devices. Under this Agreement Unident will supply its range of six bench top sterilisers comprising Series N, 200S, 200SP, 300B, 300BP and 400B machines to DMI, who will market and sell these medical devices in the UK.

Importantly, this Agreement enables DawMed to offer Primary Care practitioners such as dentists, GPs, podiatrists, veterinary surgeons and the like a "one stop shop" complete decontamination system, comprising its new range of Unident bench top sterilisers together with its well established bench top "Clinic" washer-disinfector-dryer.

Commenting, Executive Chairman, Kevin Gilmore, said: "Today's news is a further positive for DawMed this year and represents the creation of a complete decontamination system for reusable surgical instruments, used predominantly by primary care practitioners such as dentists, GPs, podiatrists, veterinary surgeons and the like by the addition of a bench top steriliser to accompany its well known and established top of the range "Clinic" bench top washer-disinfector-dryer."
