For Immediate Release

23 August 2007

DAWMED SYSTEMS PLC  
("DawMed" or the "Company")

DISTRIBUTORSHIP AGREEMENT FOR SALES AND SERVICE OF NEW BENCH  
TOP WASHER-DISINFECTOR-DRYER

The Board of DawMed, the AIM listed medical device company which designs, manufactures, sells and services healthcare decontamination equipment used by NHS Trust hospitals, private hospitals, clinics and Primary Care practitioners, is pleased to announce the signing of an Exclusive Distributorship Agreement ("Agreement") between its operating subsidiary company, DawMed International Limited ("DMI") and Prestige Medical Ltd for Sales and Service of the new "Prestige Medical WDD" bench top washer-disinfector-dryer to be manufactured by DMI.

Prestige Medical Ltd is a wholly owned subsidiary company of BI Group PLC and is an established major supplier of bench top sterilisers to the dentistry, podiatry, veterinary, cosmetic and laboratory markets, with a current installed base of more than 100,000 units, annual sales of over 8,000 units and fast growing export achievements. For Prestige Medical Ltd, this Agreement enables it to offer its customers a more complete decontamination system utilising its new bench top washer-disinfector-dryer together with its well established bench top sterilisers.

The Agreement provides for the sale by DMI of a substantial minimum annual number of the new "Prestige Medical WDD" bench top washer-disinfector-dryers to Prestige Medical Ltd who will sell the machines into the private dentistry, podiatry and laboratory markets in the UK, Europe, North America and ROW regions. This Agreement, which is of considerable importance, size and worth to DawMed, also represents the Company's second notable export achievement for this type of medical device.

Commenting, Executive Chairman, Kevin Gilmore, said: "Today's news is an important positive for DawMed following this year's negatives, and represents the second of two such agreements for a Distributor's new bench top washer-disinfector-dryer to date. Other products in the Company's range are currently the subject of Board discussions with a number of parties regarding potentially positive and notable outcomes, which it hopes to announce to shareholders in due course."
